350 SUV OPEN

All specifications shown in this brochure are based on the latest information available at time of printing. Statement Marine, LLC reserves the right to make changes without notice at any time. Some models may be shown with optional equipment. The best source of current information is the Statement factory or your Statement dealer. Please contact us at 727.525.5235 or [info@statementmarine.com](mailto:info@statementmarine.com).

## Luxurious Touches, Through and Through

Each Statement 350 Open is a completely custom creation designed and built to deliver superlative performance while serving as a one-of-a-kind reflection of your personal taste and style. Customization includes (but is not limited to) paint color - including an eye-popping range of metallic and pearl finishes; upholstery colors, accents, and stitching; flooring, powder coat colors; and more. We invite you to contact us today to begin the process of making your very own STATEMENT!

## Command Center Helm

In lieu of the standard helm with port-side driver position, the Statement 350 SUV is now available with a "Command Center" Helm, which features a three-pane electronics area, and available port or center driver's position. The unique center-steering arrangement puts the driver "in command," positioned directly on the boat's centerline with all controls and instruments angled toward the operator.

## Command Center Seating

The Command Center helm option extends to the helm seat as well, with this extra-wide, extra-comfortable three-person helm seat replacing the standard double-width helm seat offered normally. A second row of seating may be added aft of the helm seat. Many other seating configurations and styles are offered. We invite you to contact us today to learn more.

## Wraparound Bow Seating

Statement's popular wraparound bow seating offers comfortable space for entertaining. This luxurious arrangement is standard on all 350 and 380 Open models. Each boat we build may be fully customized with unique colors, finishes, stitching, and other elements to deliver a truly one-of-a-kind creation.

## Electric-Actuated Forward Lounge

Shown here is Statement's Electric-Actuated forward lounge, which is available in lieu of the standard wraparound bow seating. In the lowered position, this arrangement converts the entire forward bow into a luxurious padded playpen with sculpted, elevated headrests. At the touch of a button, two separate lounges are elevated. These can be adjusted through a wide range of positions for optimum comfort. A Statement exclusive!

## Dual Drop-Down Bolster Seat

Among the many seating options available on Statement's 350 and 380 SUV center console models is this sculpted, electric-actuated dual drop-down helm seat. This arrangement allows for comfortable seated or standing operation. On the 380, a second row of seating may be added aft of the helm seat. Statement's center consoles come with a wide range of custom seating options. Contact us to explore the many options available.

## Dual Drop-Down Shifter Seat

Statement's 350 and 380 SUV models are now available with an electric-actuated dual drop-down bolster seat with integrated throttle/shift controls in the armrest. Coupled with a specially configured dash, this arrangement provides ideal ergonomics and allows for comfortable, sports car-like operation. On the 380, a second row of seating may be added aft of the helm seat. Contact us to explore the many options available.

## Aft-Facing Contoured Lounge Seat

The Statement 380 SUV's available Aft Facing Lounge Seat is located in the most comfortable spot on an offshore center console: Aft of center, where there is significantly less motion while underway. While drivers may disagree, passengers tell us that these roomy, sculpted lounges offer the best seating in the house!

## Standard Features
