

**The 2013 Statement  
38 SUV IO**

Proven Stern Drive Performance in a Versatile  
Center Console Package

**STATEMENT!**

## Center Console Convenience Meets Diesel Sterndrive Efficiency

The 370 SUV features efficient diesel sterndrive technology, for extended range and durability. These characteristics, along with Statement's advanced running surface design, have combined to yield a fearless, ocean-beating center console machine. We were so confident with the package that we put Hull #1 to the test in an open-ocean crossing: in 8' - 10' seas between the U.S. and Bermuda. While you may never demand as much from your own boat, wouldn't it be nice to know you could?

## Custom-Tailored to Suit Your Type of Boating.

If you're trying to compare all the photos of various Statement SUV models on this website, your head may be spinning. That's because no two are built exactly alike. Sure, they all have the same performance and handling characteristics; the same rugged construction and attention to detail. Beyond that, the options grow tremendously. From consoles to tops, dash layouts to seating, when you sit down to spec out your own Statement SUV we offer you the widest range of choices available. Leaning post seat, or bolster? Add cooler, or livewell - with one or two pumps? The list goes on and on. When you're ready to move forward, call us and we'll be happy to help you design a Statement built specifically for *your* type of boating!

## Bring Your Friends, Bring Your Family!

While a Statement SUV may be one of the most exclusive center consoles on the market, when it comes to bringing friends and family along, they're actually quite **inclusive**. With their 10' beams, roomy cockpits, and myriad seating options, there's plenty of room for family, friends, and all the gear required for a full day on the water. In fact, Statement SUVs are so intuitively designed and comfortable, you'll find yourself finding more reasons to go boating. You'll also find plenty of others who are eager to come along for the ride.

## You CAN Take it With You.

You know your boating friends who meet you at the dock lugging everything but the kitchen sink? So do we. That's why we designed the SUV line with as much storage as possible. With the dockline storage lockers shown here, as well as massive in-floor lockers, bow seat storage, helm seat storage, in-dash storage, hard top storage, massive console head compartment, insulated transom compartments and more, there will be plenty of room for everyone's stuff. In fact, the biggest challenge will be remembering where you put it all!

## Standard Features
