Patented Custom-Tuned Venturi Tunnel

Cat 101: As a cat flies across the water, air is packed into its tunnel, creating a pressure wave that lifts the hull. The faster a cat goes, the more lift it creates. This lift gives cats their speed, but too much lift can result in a loss of stability, or, in extreme cases, even cause the boat to blow over. At high speeds, drivers will fight a cat's natural tendency to fly, by using drive trim to reduce lift and maintain control. This battle – lift vs. balance – is at the very core of high-speed cat operation.

Statement has solved this “cat conundrum” by creating the Custom-Tuned Venturi Tunnel, a patented design incorporating molded “tubes” to increase tunnel width and dramatically enhance airflow. The entire surface of the tunnel – sides as well as ceiling – have been specially tuned and tapered to focus the pressure right at the boat's center of gravity. The result is an unprecedented level of high-speed balance and stability. In factory tests with professional drivers, the 50 Passion attained speeds of 180 mph, with no use of trim.

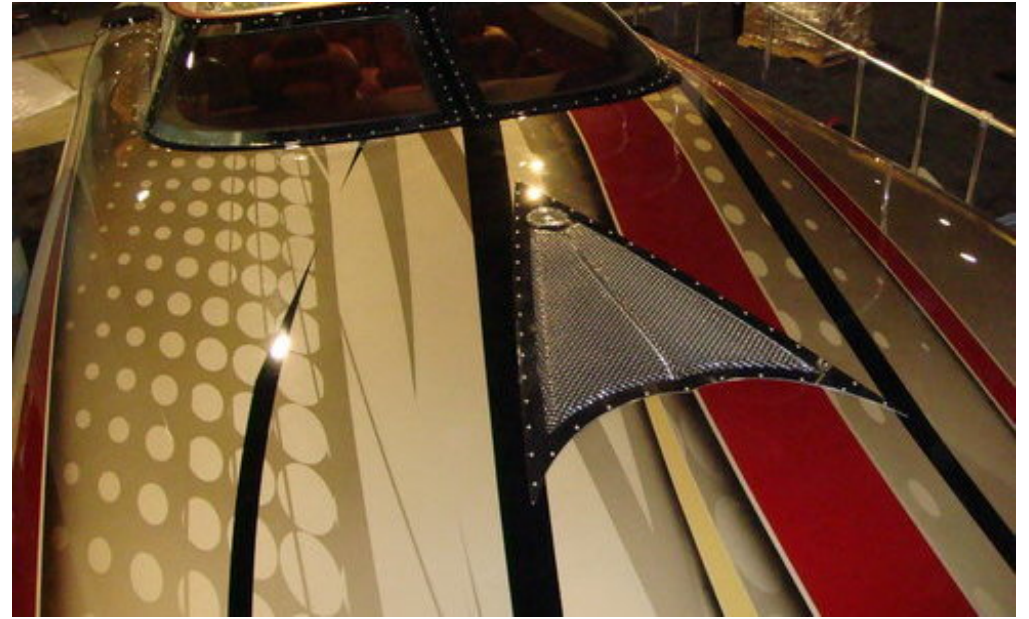

Exclusive "Air Cushion" Cockpit

The Passion 50 features Statement's patented "Air Cushion" floating cockpit suspension system – an advanced technological feature you won't find anywhere else. The Air Cushion Cockpit absorbs the pounding of offshore conditions so you'll stay comfortable, calm, and collected, throttling ahead in conditions that would have others pulling back. The mechanics of the Air Cushion Cockpit are simple, yet effective: The boat's entire cockpit rides on an auto-leveling airbag suspension system that makes such a dramatic difference you'll wonder why no one ever thought of it before. So when the seas kick up, no worries. Put the throttles down and enjoy the ride of your life

A Whole New Level of Custom

Let's suppose for a moment that you've just finished an exhilarating blast across the water and set anchor in party cove. The sun is shining, your favorite playlist is on, and the girls feel like going for a dip. Only, it's early spring, and the water is still a little too chilly. Or maybe sharks are circling? Either way, the party is pretty much over unless you've enlisted the fine folks at Statement. You see, the Statement Design Team takes custom work very seriously, and considers no challenge too big. So, if your future plans include commissioning a 180+ mph turbine-powered catamaran with an integrated Jacuzzi, then there's only one boat for you. The Statement Passion 50. Fully customizable to suit *almost* any situation.

Superior Fit & Finish

At Statement, we build all our key components in house, and we obsess over every detail. Visit our shop and witness our quest for perfection firsthand, and you might question our sanity. Perhaps rightly so. Still, if you own a Statement, you reap the rewards of our collectively questionable mental condition. Because on a Statement, you won't find rough edges, unfinished surfaces, imperfections in paint, or even the smallest detail out of place. Stand on your head and look under the seats. Trust us - we've done it. Crawl around the engine compartment or take a peek behind the dash. From bow to stern and everywhere in between, every surface has been finished to glossy, mirror-like perfection. That's just a small part of the big Statement difference!

Standard Features

"Air-Cushion" Cockpit Suspension System - Exclusive, Self Leveling

Anchor Storage

Anodized Stringer Bushings & Washers Throughout

Batteries - Optima 31 Series Dry Cell

Battery Charger - 110V AC Solid State

Bilge Pumps - Dual High Volume Automatic

Billet Hardware Kit - Custom, Color-Matched

Cabin Lighting - LED, 4-Circuit

Cabin Carpet - Custom Marine Grade w/ Inlaid Logos

Cabin Comfort Kit w/ Complementing Pillows, Shams, & Throws

Cabin Sleeping Area - Custom Convertible Sleeping Sofa (2)

Cabin Upholstery - Three-Color, Owner's Choice

Cockpit Cover

Cockpit Intercom - Six Position w/ Audio System Interface

Construction: Vacuum-bagged, post-cured, Kevlar / Corecell Composite. Molded One-Piece Hull & Deck

Cockpit Seating - Custom Fitted, Wraparound Seating for Six

Custom Paint - Owner's Choice - Up to \$50,000 Included w/ Purchase

Engine Compartment Intake Vents - Molded, Recessed

Engine Compartment Sole Panels - Custom Carbon Fiber/Kevlar Weave

Engine Compartment, Fully Finished - Owner's Choice of Color & Accents

Engine Hatch - One-Piece, Molded

Engine Hatch Hinges - Custom-Concealed Hydraulic

Exhaust - Custom CMI System w/ Dry Pipes

Fresh Water Quick Disconnect Fittings

Fuel Tank, Custom - NMMA Certified

GPS Navigation System, In-Dash - 10" Multifunction Display

Hardware - Stainless Steel, Flush-Mounted

Head Compartment - Custom Enclosed

K-Planes - Mercury Racing 380

Mercury Raceview Heads-Up Display

Motor Mounts - High Performance, Custom Powder Coated

Navigation Lights - Custom-Recessed, LED, w/ Stainless Steel Anchor Light

Overboard Discharge - Custom Concealed

Pin Cleats, Dual Ring

Propellers, 1 Set Custom CNC

Race-Rigging Throughout

Racing Controls, Custom

Solid-State Digital Switching System

Sound System - Premium AM/FM/CD w/ Ipod Interface

SSM Super Sea Strainers - Staggered Engine Configuration

Steering - Full Hydraulic, Race-Ready

Steering Wheel - Custom-Machined, w/ Silver Carbon Fiber Grip

Venturi Tunnel - Exclusive, Custom-Tuned

Windscreen - Laminated Acrylic Wraparound

USCG Safety Kit, Complete

Docking Bundle w/ 6 Dock Lines & 4 Fender Lines, Color-Matched

Statement Marine Owner's Wardrobe - Complete
